SIS Software, LLC Wins 2009 Microsoft Partner of the Year for Microsoft Dynamics SL *Business Leadership, Product Innovation, and Growth Earn Top Award for SIS*

Atlanta, Georgia, USA — June 24, 2009 — SIS Software, LLC proudly announced today that it has been awarded 2009 Microsoft Dynamics SL Partner of the Year in the Microsoft Worldwide Partner Conference Awards program. SIS will be recognized at Microsoft's Worldwide Partner Conference to be held July 13-16, 2009 in New Orleans. The annual Worldwide Partner Awards honor those Microsoft partners who delivered exemplary solutions for their customers during the past year. Award winners and finalists were chosen from nearly 2,000 nominations from around the world.

"SIS is ecstatic to have won the 2009 Microsoft Dynamics SL Partner of the Year award from Microsoft," said Steven Mulka, Partner at SIS. "We would like to thank all our employees who work hard with our customers every day to provide them with powerful solutions to their business problems. Without their dedication, software expertise, and focus on our customers, SIS could not have been the recipient of this coveted award."

The Microsoft Dynamics SL Partner of the Year award is given to the partner who has exhibited excellence in providing innovative and unique solutions based on Microsoft Dynamics SL, along with business leadership and success with strong growth in new customer additions and revenue. SIS was recognized for its excellence in providing a total financial and operational software solution based on Microsoft Dynamics SL and SIS's custom developed applications. The winning solution delivered a 100% return on investment in less than 16 months based solely on cost savings, not including any increases in revenue or other growth factors

"Microsoft is proud to recognize SIS Software for offering their customers a full range of services from software evaluation, implementation, development, training, and support. SIS has been named the Microsoft Dynamics SL Partner of the Year for demonstrating their strength as an industry sales and services leader and for creating solutions designed to generate a return on their customers' investments," said David Willis, Vice President, U.S. Microsoft Dynamics, Microsoft Corp. "SIS's winning solution moves customers from disconnected manual systems with insufficient capabilities to an interconnected solution based on Microsoft Dynamics SL, Visual Studio, Office, Windows, and SQL Server. This solution is designed to reduce customer costs and produce a significant return on customer investment."

SIS is a Gold Certified Microsoft partner specializing in financial, operational, and project management software solutions for construction and related industries, based on Microsoft Dynamics software. Since the company was formed in 1992, SIS has consistently demonstrated its leadership in industry sales and service, generating tremendous, proven return on investment for clients. Over the years, SIS has won numerous Microsoft Partner Awards including Customer Service Excellence, Evangelism, and Loyalty; and SIS was a finalist for Microsoft Dynamics SL Partner of the Year in both 2007 and 2008 as well as the Worldwide Sales Leader for Microsoft Dynamics SL in 2006. SIS is the founder of the Microsoft Dynamics SL Users Group, and serves on Microsoft's Partner and Product Advisory Boards. SIS is also valued by Microsoft for its contributions to the Microsoft Momentum web seminar series and marketing campaigns, SureStep Implementation Methodology, and partner training for vertical markets. *Accounting Technology* consistently ranks SIS among their "VAR 100" as one of the Top 100 accounting software resellers in the United States.
